

Biography for Mr. Scott C. Algeier

Scott C. Algeier works at the intersection of cybersecurity policy and operations. He is the Founder, President and CEO of cybersecurity consulting firm Conrad, Inc. and Executive Director of the Information Technology – Information Sharing and Analysis Center (IT-ISAC). Conrad, Inc. provides strategic policy and business consulting services to businesses and not for profit organizations focused on cyber security and critical infrastructure protection (CIP). Scott engages senior level policy makers in industry and government, domestically and internationally, on behalf of his clients. This includes direct engagement in the development of the nation’s most significant domestic cybersecurity and CIP policies and operational plans.

The IT-ISAC is a non-profit organization that enables companies to better manage cyber risks to their corporations and the IT infrastructure. As Executive Director, Scott’s responsibilities include the daily management of the organization, developing and implementing enhanced information sharing and analysis capabilities, facilitating cyber incident response across the IT-ISAC member companies, and establishing and maintaining effective partnerships. He is the IT-ISAC’s principal spokesperson, representing the organization to the public, senior leadership at the U.S. Department of Homeland Security (DHS), the U.S. Congress and international organizations.

Scott also serves as a member of the Executive Committee of the IT Sector Coordinating Council, a STARS Mentor at MACH37™, America’s premier market-centric cybersecurity accelerator, and a Mentor at Austin, TX cybersecurity incubator Manifest. Scott also served as Vice Chair of the National Council of ISACs and as industry Chair of the IT Sector Risk Assessment Committee, which developed the first ever public-private risk assessment of critical IT functions.

Previously, Scott was Manager for Homeland Security at the U.S. Chamber of Commerce, where he coordinated the U.S. Chamber’s critical infrastructure protection, cyber security and disaster management public policy initiatives. While in this position, Scott served as a member of the Information Sharing Study Group of the President’s National Infrastructure Advisory Council.

Scott earned his Masters’ in International Relations and European Studies from the University of Kent (England) and is an honors graduate of Gettysburg College.
